I asked Les Baugh, Shasta County Supervisor, to share his thoughts re: Carr fire response/actions.
His Reply:

Doug...

- * Presidential declaration essential
- * Immediately appointed a county disaster recovery director
- * Immediately set up disaster recovery center
- * Met with every department head and let them know they would be expected to move beyond normal responsibilities
- * Information information information. Combined county/city website
- * Rolled back building standards to 1997 where possible
- * Allowed trailers, fifth wheels, tiny homes to be placed on properties to be rebuilt
- * Assigned specific planners to facilitate building applications
- * Removed as many government roadblocks as possible

There's a lot more. Those are the essentials though. If I think of anything else I'll send it to you.
God bless you, Doug.

Shari does Charter County status make things easier? Does Town being in a Charter County have any advantages? County has Title 25, don't know if town would be interested or avail.

Know everyone is busy until fire controlled, this is just ideas to think about.

POTUS tweets about no aid for us has the national media driving us crazy. Jody called me to ask for your help. We are sticking with "no comment" Or "we have not received any official word to that effect". please help us by reassuring people in any media interviews that you do and if you have any way of reaching out to the White House that would make our lives easier we know it's going to come, I know you reassured us to that effect. trying to deal with the onslaught of media calls is keeping us from our core mission at this time of serving our all the citizens affected by this disaster.

Our first responders and staff are demoralized by the remarks. Please help us.

Ann Schwab here. If city staff or relief workers would like lunch or dinner tonight, tomorrow or anytime next week please have someone text me at 530-518-7383. I'm working with a group called World Central Kitchen who's purpose is to serve relief workers and people displaced by disasters. They can prepare thousands of meals a day and will be here a minimum of a week.

FYI - I'm assuming your e-mail is still down so wanted to let you know that I cancelled our CAO/City Manager lunch scheduled this Friday.

I'll see you at 11:00 for our FEMA tour, and hopefully we can grab a few minutes afterwards to touch base.

Hope you're getting some sleep [EMOJI][EMOJI]
